Evaluation of the role of UNDP in the net contributor countries of the Arab region

Corrigendum

The last sentence of paragraph 9 *should read*:

Much of the important work in support of the UNDP human development agenda in NCCs comes from work with civil society and is financed primarily from UNDP sources.

The third and fourth sentences of paragraph 27(c) *should read*:

The expertise (core competencies) and comparative advantage of UNDP lie in particular thematic areas where it can play a strong role in promoting human development and its core approaches such as national ownership, capacity development, knowledge transfer, gender equality and south-south cooperation. At the same time, it should stand ready to assist in its role as the gateway to the United Nations system – also seeking to add as much value as it can through the approaches listed above.
